

Ankur Desai

(248) 657 – 3805 | ardusa05@gmail.com | www.ardusa.dev | linkedin.com/in/ardusa

EDUCATION

Michigan State University

B.S. in Computer Science

Expected Graduation, 2027

East Lansing, MI

- **GPA:** 3.5 / 4.0
- **Relevant Coursework:** Linear Algebra, Discrete Mathematics, Object-Oriented Software Design, Computer Organization and Architecture, Data Structures & Algorithms

EXPERIENCE

Claude Builder Club @ MSU

Vice President

Oct. 2025 – Present

East Lansing, MI

- Drove project coordination for 100+ members: eliminated manual onboarding via automated provisioning (GitHub API + Slack SDK), granting repo and workspace access in 30 seconds and cutting setup time 97%; maintained project documentation and version control.
- Replaced paper sign-in with a QR-driven check-in system backed by AWS S3, enabling real-time attendance tracking and cutting processing time 80%; supported cross-functional rollout across events.
- Enforced quality assurance via GitHub Actions CI/CD with 90% coverage gates; executed scripted test cases across 20+ tests, documented results, and supported SIT/UAT-style testing cycles.

MindMosaic

Software Engineer

Aug. 2025 – Nov. 2025

East Lansing, MI

- Supported data migration and process mapping: introduced Neo4j and mapped relational workloads to graph schema, cutting p95 latency 48% (850ms → 440ms) and eliminating join overhead for multi-hop traversals.
- Gathered business requirements into structured configuration and schema design; worked cross-functionally; refactored Cypher with relationship-type indexing for 3× faster traversals.
- Implemented GitLab CI/CD with build, test, and deployment stages; executed test scripts and enforced 85% coverage across 35+ tests for QA and deployment readiness, supporting SIT practices.

PROJECTS

Mira — Agentic Voice Assistant | *Next.js, FastAPI, MongoDB, Redis, Celery* May 2025 – Nov. 2025

- Engineered multi-client agentic voice assistant that batches dialogue and dispatches real tasks across concurrent streams; documented architecture and supported deployment validation and testing.
- Reduced RESTful API response time by 73% by offloading RAG pipeline to async Redis/Celery task queue.
- Built bidirectional Electron + Next.js client with an embedded HTTP server for OAuth callback interception; real-time events via IPC and a dedicated webhook server deliver sub-50ms propagation.
- Deployed FastAPI inference service on AWS Lambda with lazy-loaded ML models (Whisper, Sentence-BERT, spaCy), eliminating idle compute costs while reducing cold-start latency by 86% (6,643ms → 930ms).

WizViz — SpartaHack X | *Python, MediaPipe, OpenCV, NumPy, TensorFlow* Feb. 2025

- Won Interactive Media Track: delivered under 24-hour deadline with detail-oriented problem-solving; gesture-controlled wizard duel with full-body spell casting against an AI opponent.
- Built full-body gesture pipeline using MediaPipe Pose to map 33 skeletal landmarks into game actions; optimized inference loop to sustain 60 FPS with sub-20ms input lag.

TECHNICAL SKILLS

Languages Python, Java, JavaScript/TypeScript, SQL, Cypher, Golang, C++, Bash
Frameworks Spring Boot, FastAPI, Node.js, Angular, React, Next.js, Redis
Databases PostgreSQL, Neo4j, MongoDB
Cloud & Infrastructure AWS (EC2, RDS, S3), Docker, GitLab CI/CD, CI/CD Pipelines
Tools MS Excel, Word, PowerPoint, Git, version control, PM tools
