Hiring Committee

Associated Students of Michigan State University (ASMSU)

Engagement Office

East Lansing, MI

Re: ASMSU Engagement Office Assistant (Summer 2026)

Dear ASMSU hiring team,

I am writing to apply for the **Engagement Office Assistant** position for **Summer 2026**. I am a **B.S. Computer Science** student at Michigan State University (expected **May 2027**), already in **East Lansing**, and I am excited to support ASMSU's **business and engagement operations** in a role where **accuracy, courtesy, and dependable records** matter every day.

I want to work for **ASMSU** because student government is where campus life meets real accountability: **loans, room scheduling, mail, and day-to-day questions** only work when the desk behind them is organized and students are treated with respect. I am drawn to that mix of **administrative support** and **public-facing service**, not as a placeholder, but as a way to contribute to MSU while I am here.

In my role as **Vice President and Co-Founder** of **Claude Builder Club @ MSU**, I operate at the same scale as many campus programs: **100+ members, high-volume events, and membership and attendance records** that have to stay correct. I replaced slow, paper-heavy onboarding with a **digital intake flow** that cut setup time about **97%**, moved large events off paper sign-in to a **QR check-in** process (**150+** check-ins per major event) with clear validation at the door, and built **scheduled reporting** that cross-checks attendance against enrollment so board members get usable numbers even when individual rows need follow-up. I also maintain **authoritative membership data in database software (PostgreSQL)** with tiered roles so permissions stay aligned—experience that maps to **maintaining files, application records, and consistent data entry** under supervision.

At **WFS Consulting Group**, I supported a **non-technical manager** on a **customer-facing** website in **Vue**: translating **Figma** specs into exact layout work, tightening **forms** with validation to reduce bad submissions, and shipping **responsive** pages so public users on phones and desktops saw a consistent, professional result. I am proficient with **Microsoft Excel and Word, Google Sheets and Docs**, and standard **PC and printer/scanner** setups.

I have **not** yet worked an ASMSU **loan desk, cash drawer, or phone bank** in a formal office role, and I will not pretend otherwise. What I bring is a track record of **following procedures carefully, learning new tools quickly, and staying calm with repetitive, detail-heavy work**. I am eager to train on ASMSU's **loan workflow, room contracts, and front-desk expectations** exactly as the **Business Office Manager** and **Controller** define them, and to treat **customer service to MSU students and the public** as a core responsibility.

I am a **U.S. citizen** with unrestricted work authorization. Thank you for your consideration; I would welcome the opportunity to discuss how I can support the **Engagement Office** this summer.

Sincerely,

Ankur Desai
